## DESCRIPTION

### 450 to 650 litre capacity water tank

- Tank with inspection hatch, overflow, control level, wave prevention bulkheads
- 1 quick-fill with 2" valve + DN 70 symmetrical fitting
- Total emptying, frost protection, hand-wash
- 1 filling by "gardena" low-pressure fitting with end-of-filling stop

### 3-piston solid ceramic high pressure pump

- Flow rate from 20 to 40 litres/min
- Pressure 150 to 300 bar

### High-pressure safety

- Manually-operated pressure controller with line discharge
- Low-water cut-out automatically disengages the HP pump
- Water filter on HP pump supply with removable filter element
- LP cut-off valve for filter cleaning
- HP valve on winder
- Pressure sensor

### Drive

- HP pump driven by a generator and an elastic coupling

### Batteries

- Powered by a 28 kWh capacity battery pack
- Recharge capacity between 1000 and 5000 cycles

### The winders

- 1 HP winder driven by an electric motor, capacity of 80 m of 3/8" hose

### Control panel

- Lock out circuit breaker
- 1 control panel at the rear in a weatherproof enclosure with display
- Hour meter for HP and engine.
- Emergency stop palm button
- Radio control with feedback

### SKID frame

- Allows rapid assembly and disassembly of the high-pressure cell

### Equipment and accessories

- 2 stainless steel nozzle heads with holders
- 1 lance for cleaning the surrounding area
- 50 m of 3/8" hose
- 30 m of extendible hose
- Work light

### AVAILABLE OPTIONS:

- + HP pump
- + Accessories
- + Tank capacity
- + Additional battery pack
- + Quick recharging station
- + Battery pack recycling
